through them as they appear. It is also a good idea to blaze that Transmuting Flame through the discordant energy bearing your stamp in this universe before it presents itself to you for redemption. Keep yourselves surrounded always by that Flame of Love which is God's mercy and forgiveness in action.

Blessings and Love,

Beloved Children:

The Great Central Sun is the distributing center through which the soul-light flows which forms the Body of God and fills the universe. All the planets and stars in interstellar space are composed of this electronic substance and through this substance constantly flows the rhythmic breath of the First Great Cause or Great Central Sun, which is the Heart Center and Head Center for this particular Universal Scheme. Through the Great Central Sun came the smaller suns, of which Helios is one, there being seven in the universe. Around these smaller suns move the planets of each system.

Taking you from such a large and expansive scope of Vision, we see our own sun sending forth millions and millions of smaller suns which represent every lifestream belonging to this system of worlds, each one endowed with self-conscious intelligence and he or she given as much of the Body of God as they choose to utilize to create perfection. Therefore, My children, each and every one of you is a sun in embryo.

The electrons that fill the universe which you term the atmosphere, and which even form the substance of the material gifts that you use so freely, are the Body of God. They have come from a pure, clean Heart Venter which is the Heart of Heaven. They are imprisoned, temporarily, in the forms created by man, yet they pulsate constantly with life. They have intelligence within them, and they are aspiring, like all of you, toward the full expression of their own Godliness. Every table, every chair, every book, every carelessly

scrapped piece of paper has within it living organisms and beings eager and desirous of fulfilling their evolution and becoming perfected beings in some future scheme.

I have watched mankind use a piece of furniture or a piece of paper, and when the required need is over, discard it roughly and carelessly. How, think you, do the electrons within that item feel? Think you it is idly that Saint Germain has suggested that when such an article has served its purpose it be placed in the physical flame and the electrons freed to return to the sun? This is a universal teaching applying to all. I have seen a withered flower crushed and thrown carelessly into the garbage. How, think you, the beautiful electrons that made up that flower must feel - rather than the gratitude of the lifestream that enjoyed them freeing them through the flame into the universal. This refers to everything that serves mankind; not only people - but the very rugs beneath one's feet, the outworn shoe or the discarded note upon which a message has been transcribed.

Beloved ones, as you pass through the course of your daily outer world activities, if you would learn to be aware of these lovely, intelligent electrons that make up the atoms of life, and would help them on their course by love and gratitude and prayer, you would find your world so filled with the substance of God in money and supply that you would have to secure help to dispense your opulence. The electrons that form the material wealth of this universe love LOVE, and they will seek to be in the presence and the aura of one so loving. Remember the song: 'Oh, 'tis love and love alone the world is seeking.'

Blessings and Love,

Beloved Children:

There is only one life that flows through every one of the ten billions of lifestreams belonging to the planet Earth. Every lifestream is a channel for the one life. There is no difference between the life that flows through each one any more than there is a difference between the water that flows through the faucets on the main floor or the second floor of a building. The Father of all Life and the Ascended Masters are constantly pouring their Peace, their Perfection, their Mercy and their Freedom through every lifestream, and there will not be one atom on this planet which will not achieve Perfection and Immortality. The Great God, Freedom (Saint Germain) has achieved this because His love was great enough to cause Him to stand before the Throne of God and demand the opportunity to save this Earth from dissolution. This boon was granted Him, and His answer was the gift of the Violet Transmuting Flame to mankind whereby they might cleanse and purify and redeem the electronic substance which they so boldly drew from the Heart of the Eternal and forced it to assume such shape and form as make the angels hide their faces in shame.

Beloved children, Life is beautiful. It is a magic, mystic thing because it is substance composed of the Body of God. It is a conscious emanation of the life of the individual pouring forth constantly into the atmosphere of Earth everywhere. It is the electronic energy of Love itself taking humbly whatever form is required of it by the user at the moment. The substance of My life is always
